

The Eden II & Genesis Foundation is partnering with an non-governmental organization (NGO) called 'Straight from the Heart' to help support the development of an autism school and their first classroom in Monrovia, Liberia. At this time, there are no formal education programs in Liberia for children with autism. The Eden II & Genesis Foundation has adopted this program. It is part of our mission to help support people with autism, regardless of where they live. In order to make this program happen, Straight from the Heart will need a lot of materials and supplies.

Please help us support this initiative and donate today!

In recognition of World Autism Awareness Month, we are hoping to gather donations to send by April 30th!
